Team 19 Management Report

Laboratory # 6: End-to-End Prototype

Morgan, Laura
Miaw, Jireh
Hauser, Steven
Dworak, Catherine
Bertoglio, David

Work Product
Weekly management report containing the responsibilities of each member over the course of the week and his/her contributions to the weekly tasks. Also includes tasks completed during the meeting, a schedule for the upcoming week, and any significant unresolved problems encountered.

Document Revision Information
April 5, 2013 - Created

Approval Sheet

All group members whose names are listed below approve of the document and contributed fairly.

**Morgan, Laura
Miaw, Jireh
Hauser, Steven
Dworak, Catherine
Bertoglio, David**

Pledge

On my honor, as a student, I have neither given nor received unauthorized aid on this assignment.

**Morgan, Laura
Miaw, Jireh
Hauser, Steven
Dworak, Catherine
Bertoglio, David**

Table of Contents

Management Responsibilities

Laura Morgan: Document preparation
Jireh Miaw: Scheduling and task assignment
David Bertoglio: Configuration management and file system control
Catherine Dworak: Web site development
Steven Hauser: Presentation preparation

Contributions

Laura Morgan:
- Participated in creation of goals and milestones of end-to-end prototype

Jireh Miaw:
- Looking into additional functionality
- Editing code and improving readability

Steven Hauser:
- Worked on prototype that checks and sends sensor data

Catherine Dworak:
- Participated in creation of goals and milestones of end-to-end prototype

David Bertoglio:
- Developing prototype, worked on source code, worked on adding acks

Meeting Overview

Attendees:
Laura Morgan
Jireh Miaw
Catherine Dworak
David Bertoglio

Meeting Location:
Rice Hall: Third Floor

Meeting Time:
April 5, 2013 Friday, 1:00 p.m. to 4:00 p.m.

Agenda:

Postlab 6:
- Complete the end-to-end prototype for basic functionality
- Prepare for testing of end-to-end prototype
- Complete testing of end-to-end prototype with Group 20
- Document the results of testing end-to-end prototype

Prelab 7:
- Define goals of enhanced prototype with Group 20
- Begin implementation of goals of enhanced prototype
- Explore additional features
- Work on adding ACKs

List of Completed Tasks
- Complete the end-to-end prototype for basic functionality
- Completed and documented end-to-end prototype test
- Define goals for enhanced prototype test
- Scheduled enhances prototype test with partner group

Schedule for Upcoming Week

Additional Meeting:
April 7, 2013 at 1:30 p.m. in Rice 3rd floor

Agenda:
- Meet for first enhanced prototype integration test
- Document the results of enhanced prototype integration testing

Tasks to be Completed:
Laura Morgan
- Finish documentation for end-to-end prototype   April 7

Jireh Miaw
- Finish editing enhanced prototype code for readability   April 7

Steven Hauser

Catherine Dworak
- Prepare documents for enhanced prototype integration test   April 7

David Bertoglio
- Finish the enhanced prototype   April 7

Unresolved Problems
